

MIVAL®

INDUSTRIAL VALVES

MIVAL®

QUALITY VALVES
THAT CAN
MAKE YOU
WORK BETTER.

VALVES MADE IN ITALY FOR INDUSTRY SINCE **1967**

MIVAL is an **Italian company** specializing in the production of industrial valves, which **ranks among the leading European valve manufacturers**.

We work with the aim of guaranteeing **highly performing and reliable products** to our customers.

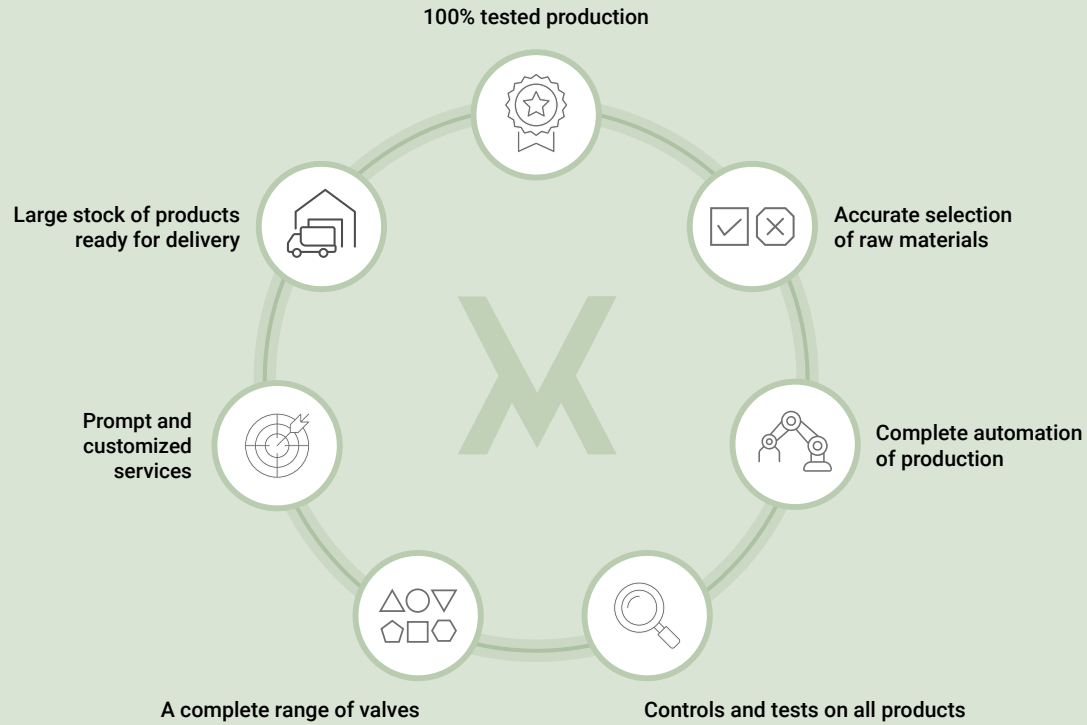

We do it with passion, finding solutions for every need, operating with highly automated systems, to our customer high-quality products in every condition.

Our company is based in Valsesia, at the foot of Monte Rosa, one of the greenest mountain areas in Italy. An area that we love and respect, committed to reducing CO² emissions and consumption, towards environmental sustainability.

100% QUALITY
AT EVERY
STEP OF
PRODUCTION

Attention to the quality of each valve is our priority.

Starting from a **careful selection of materials**, we operate with **highly automated production systems in all departments** and carry out **control and testing activities with the most advanced systems**, carefully checked by qualified personnel.

OUR VALUES

PROBLEM SOLVING

With nearly 60 years in the valves market, we have the experience necessary to understand materials, processes and industrial problems allowing us to **provide the best technical support and sales service.**

VALUING TIME

Thanks to our large 4,000-square-metre warehouse for **products ready to delivery**, we are able to supply many of the most popular models **at short notice**, including valves made to **customer specifications** or with **special processes.**

ROBOTIC PRODUCTION

We have always believed in automation. Since the 1980s, we have implemented **highly automated systems** across all departments. This has enabled us to **reduce production times, increase precision, and ensure the reliability** of all our products.

CERTIFICATIONS

MIVAL is certified according to
UNI EN ISO 9001:2015 Certificate
ISO 14001 Certificate

MIVAL production complies with the requirements of EU Directive 2014/68.
2014/68/EU (PED) Certificate
TA-Luft VDI 2440 Certificate
94/9/CE (ATEX) Certificate

30+ DISTRIBUTORS

MIVAL has an extensive sales network throughout **Italy**, while in **Europe** it has at least one distributor per country.

In the **rest of the world**, it routinely operates with dealers in numerous countries: from North Africa to Latin America, from the Middle East to Asia and South East Asia.

MARKETS AND SALES NETWORK

MIVAL valves are used in production processes in many market sectors:

- Systems with steam and thermal oil boilers
- Overheated water
- Drinking water
- Chemical and Petrochemical
- Pharmaceutical and Hospital
- Energy
- Cogeneration
- District heating
- Naval
- Firefighting
- Hydrogen and Oxygen production

OUR VALVES

All products and their features available on our website mival.it or by consulting the **general catalogue**.

We are a leader in the production of maintenance-free valves, in particular bellows valves, but we provide a complete range of valves suitable for every type of need.

Our technical service guides you in choosing the best valve depending on the use and supports you if special or customized processes are required.

MAIN PRODUCTS

- Maintenance-free flow control valves
- Shut-off and control valves
- Rubber-seated gate valves
- Check valves
- Y strainers
- Butterfly valves
- Joints
- Sight glasses

MATERIALS

- Cast Iron
- Nodular Cast Iron
- Carbon Steel
- Stainless Steel
- Brass
- Bronze

SPECIAL PROCESSES

- Stellited seats
- Flange facing types EN1092-1/2 (standard type "B")
- Butt welding ends
- Special paints
- On request executions

BELLOWS VALVES

PN: 10 - 16 - 40
DN: 15-300
TEMP: up to 450 [°C]

VALVES FOR WATER

WAFFER AND FLANGED-TYPE
PN: 16
DN: 25-200
TEMP: up to 120 [°C]

GATE VALVES

PN: 10 - 16 - 40
DN: 40-500
TEMP: up to 300 [°C]

CHECK VALVES

PN: 10 - 16 - 25 - 40
DN: 15-300
TEMP: up to 350 [°C]

"Y" STRAINERS

PN: 10 - 16 - 25 - 40
DN: 15-400
TEMP: up to 400 [°C]

BALL VALVES

PN: 10 - 16 - 40
DN: 40-500
TEMP: up to 180 [°C]

JOINTS

PN: 10 - 16 - 40
DN: 32-500
TEMP: up to 110 [°C]

BUTTERFLY VALVES

PN: 10 - 16 - 25
DN: 25-300
TEMP: up to 180 [°C]

FLOW INDICATORS

PN: 10 - 16 - 40
DN: 15-300
TEMP: up to 280 [°C]

OUR FLAGSHIP

STREAMLINED FLOW VALVES WITH BELLOWS

TA-Luft
APPROVED

THOUSANDS
OF CYCLES
GUARANTEED

When it comes to safety, especially in extreme working conditions, the seal must be perfect.

We guarantee the perfect seal of our bellows valves - **RATE A** - even after thousands of opening and closing maneuvers.

STREAMLINED FLOW VALVES

WITH BELLOWS OUTSIDE SCREW
PN: 16 - 25 - 40
DN: 15 - 300
TEMP: up to 450 [°C]

COMBO VALVES

VALVE+STRAINER OR VALVE+VALVE
PN: 25/16
DN: 40-150
TEMP: up to 350 [°C]

The entire range complies with the strictest standards relating to emissions into the environment and all components comply with the standards of the **P.E.D. directive 97/23/CE**.

BEYOND PRODUCTS

TESTS

Hardness test
Rupture test and PMI analysis
Two bellows leakage tests
100% production testing in accordance with EN10266
Verification of perfect tightness (RATE A)
Traceability of each single valve

SERVICES

Wide choice of raw materials, ready in stock
Pre- and post- sales customer service
Timely deliveries for products on request
Technical data sheets for installation
Product models: 2D, 3D and BIM
Spare parts for all our valves

SUSTAINABILITY

Sustainability for MIVAL means daily responsibility. Every stage of production is designed to reduce environmental impact and promote the efficient use of resources.
